DETAILED ACTION

Allowable Subject Matter

1. Claims 6-8 and 11 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claims 6-8 and 11 are allowable because of the cutting apparatus with the movable edges of respective right and left movable blade parts laterally cooperating with the one of the front/rear stationary edges of the front and rear members of the stationary blade part in combination with the remaining limitations set forth in the claims. The prior art cited fails to disclose both left and right movable parts cooperating with front and rear members. The specification and claims clearly defines the front and rear directions and left and right directions. For example, Cross et al. (4,951,540) discloses a front and rear movable member (41 and 33) and front and rear stationary blades (30 and 31). The location of the members/blades do not allow for either to be interpreted as right or left. Meaning all of the prior art discloses all front and rear movable and stationary member or all right and left stationary and movable member but not both. None of the prior art cited discloses an apparatus that incorporates the use of movable edges of respective right and left movable blade parts laterally cooperating with the one of the front/rear stationary edges of the front and rear members of the stationary blade part to cut blades. Therefore, in view of what has been stated above, the claims are allowable over the art of record.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
